

DIY Double Glazing Kit-Door

Form Instructions

Thank you for considering our DIY Service. Here's how you can submit this form and complete your order.

You have two options; you can either:

- Print this document, fill it in by hand, then scan and email it back to us at admin@theenglishcraftsman.co.nz.
- Fill in the fields electronically, then go to print the file but making sure to select your "Microsoft PDF Printer". This will save your changes, and you can then email us the form directly.

You will need to do this for each item, unless the measurements are identical, in which case please simply adjust the quantity.

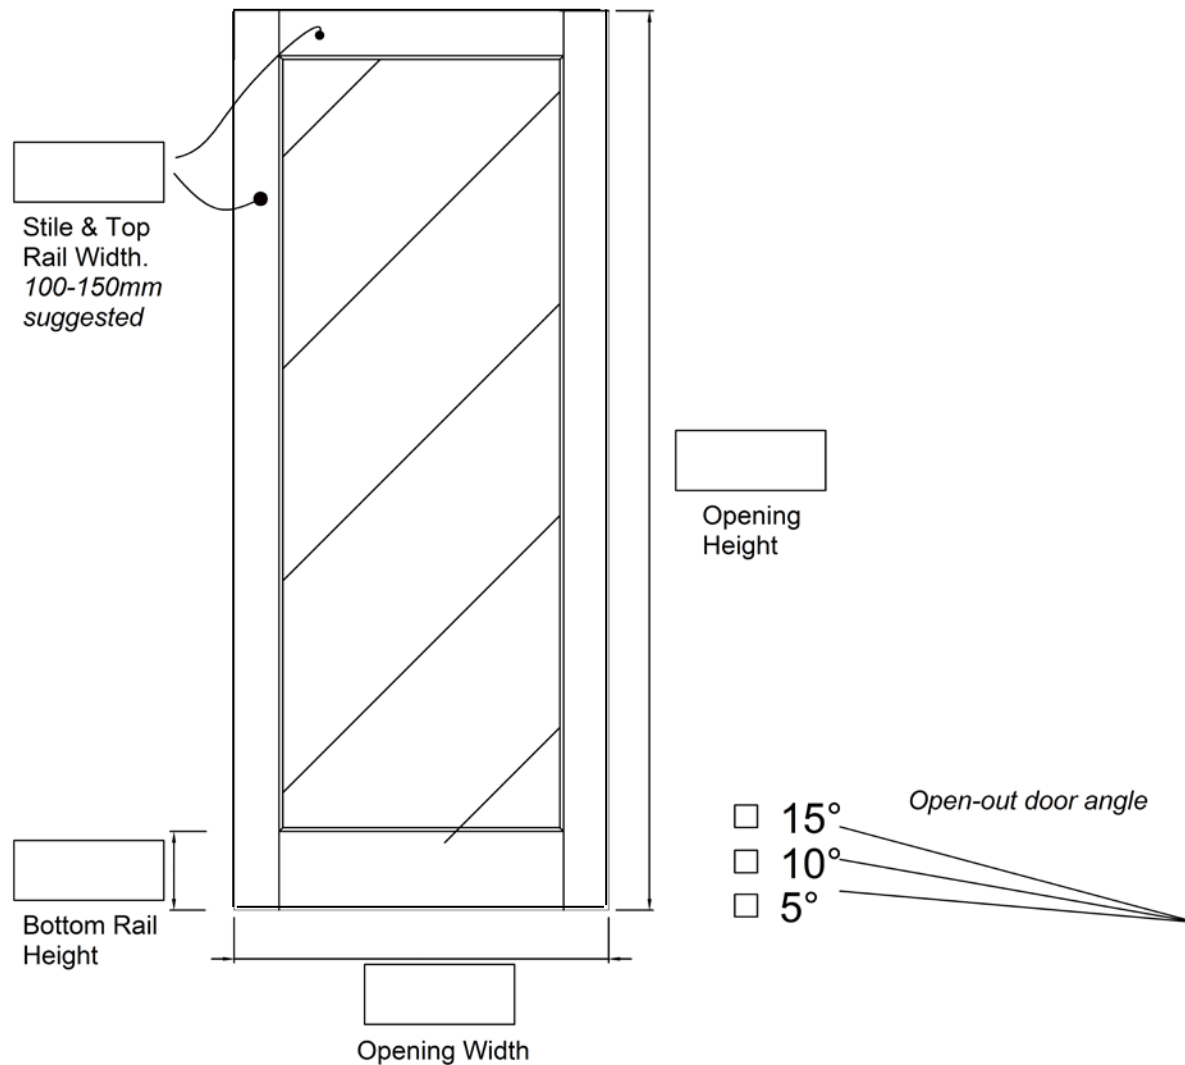

Please also provide your measurements in millimetres, and remember to name your items with something distinct. You will need to know which item goes where when you start installation.

If you have any questions or are having difficulty filling in the form, feel free to give us a call on 0800 494 636.

Door Description: _____
